Project Partners:

Joining forces across borders, YERAME is a powerhouse collaboration of six partners from Egypt, Greece, Italy, Spain, Palestine, and Tunisia.

What We've Accomplished:

During an intensive week in Madrid, we successfully conducted the Entrepreneurship Training of Trainers from October 24th to 27th, 2023. Trainers were introduced to the EntreComp Framework, and the EntreComp Framework Guide Draft, collaboratively developed by our partners, was disseminated. The primary objective was to assess and contemplate the appropriateness of the proposed activities within the guide to foster the development of 15 key competences, incorporating any necessary amendments or improvements.

Furthermore, we shared valuable resources, including the National Guide on successful experiences in youth entrepreneurship and Mapping of Good Practices. These resources are intended to empower trainers, serving as additional tools in the implementation of the training at a national level. This initiative aims to establish a solid foundation and inspire young participants on their entrepreneurial journey. Notably, part of this impactful training session took place in an innovative Coworking space situated in the heart of Madrid.
